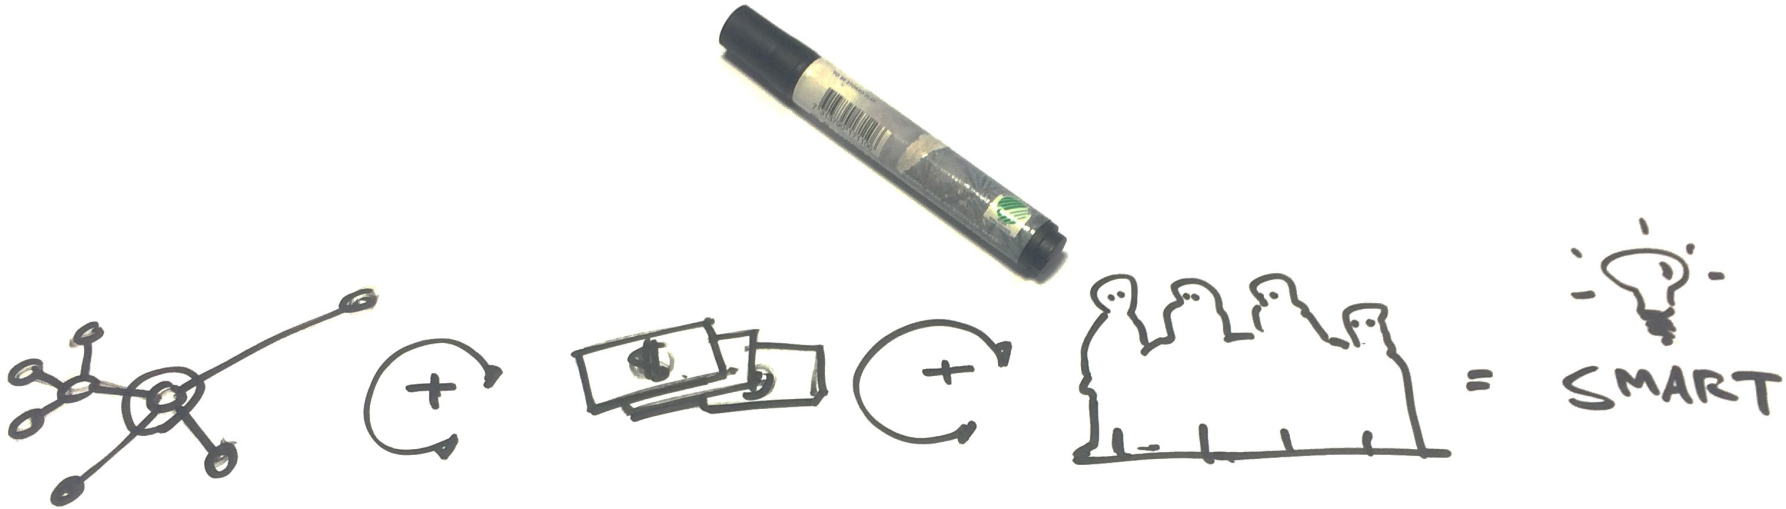
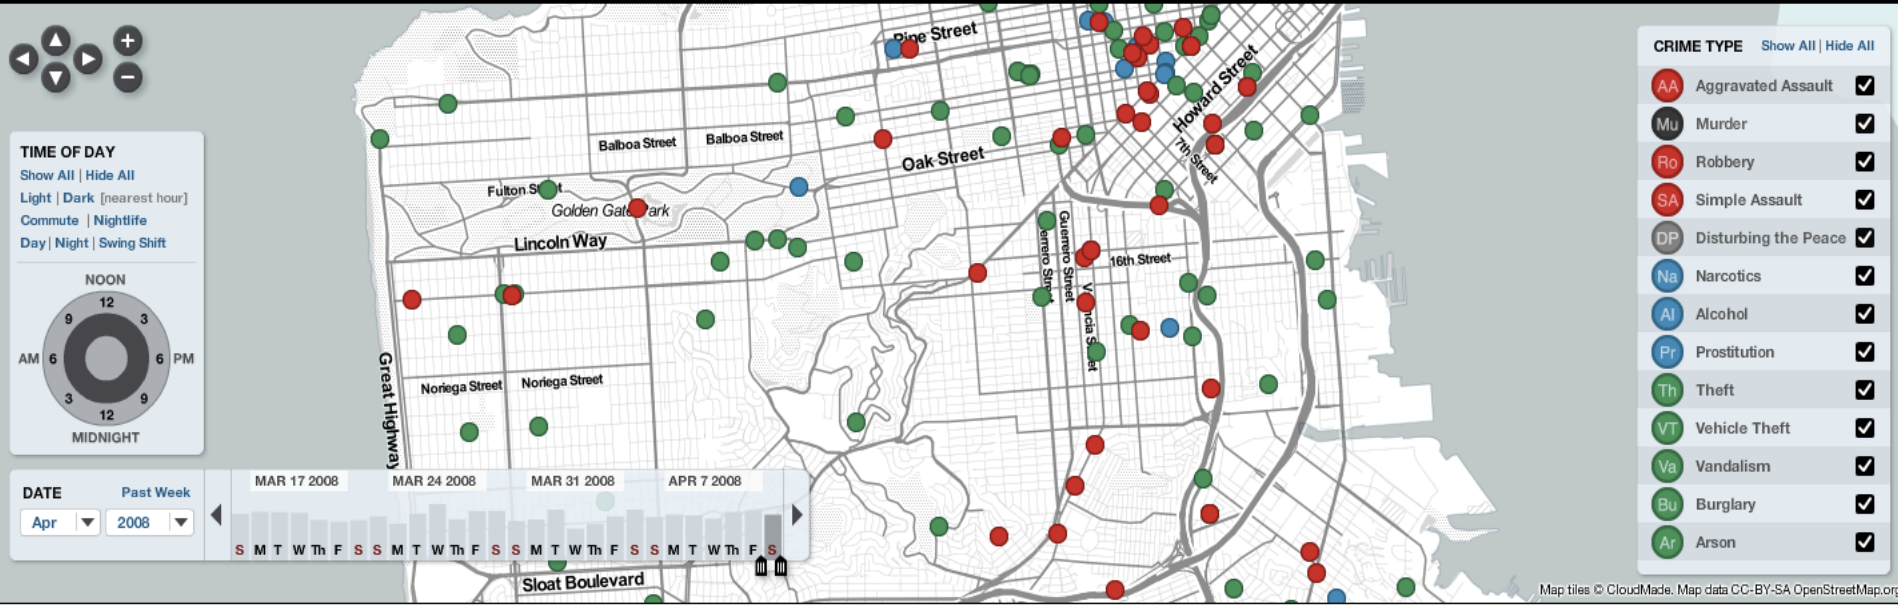
Hva er en smart by?



San Francisco crimespotting

Report data last published by San Francisco Police: **973 days ago**



Notice anything different?
We've been working on the interface design, read more about it on the blog.

***San Francisco Crimespotting* is an interactive map of crimes in San Francisco and a tool for understanding crime in cities.**

If you hear sirens in your neighborhood, you should know why. *Crimespotting* makes this possible with interactive maps and RSS feeds of crimes in areas that you care about.

We've found ourselves frustrated by the proprietary systems and long disclaimers that ultimately limit information available to the public. As citizens we have a right to public information. A clear understanding of our environment is essential to an informed citizenry.

A note about map symbols

The names used here are based on Oakland's categorization of its crime statistics on the *CrimeWatch* website. We have additionally grouped them into violent crimes (red), property crimes (green), and "quality of life" crimes (blue).

”Smarte byer” er ikke så smarte

Kanskje vi trenger å fokusere på smarte innbyggere i stedet?

Teknologien er allerede her,
men vi må bruke den riktig
Einar Sneve Martiniussen, AHO

We should defend the right for the city to be irrational, shrouded in imagination.

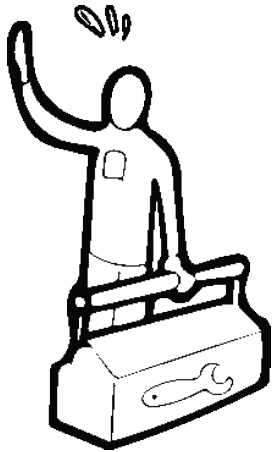
We should not leave humanity to engineers.

Dan Hill – City of sound

Byutvikling og urbanisme er store og komplekse temaer…
..vi trenger å tenke på tvers av fagfeltene

Designmetoden og verktøykassen er vår profesjon.

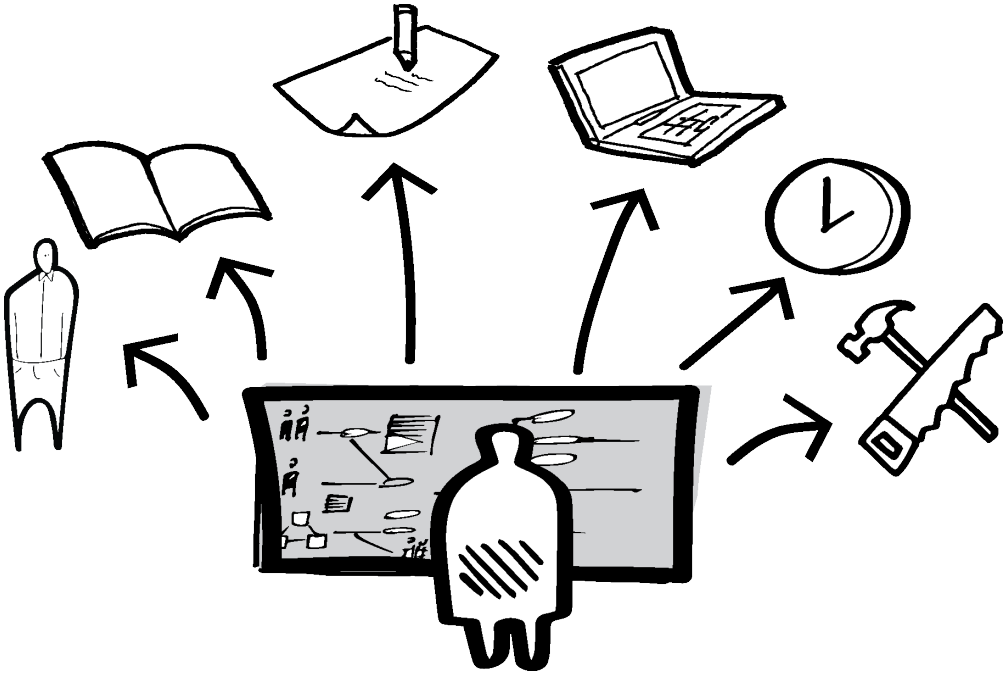
Hva?... for hvem? – før hvordan!



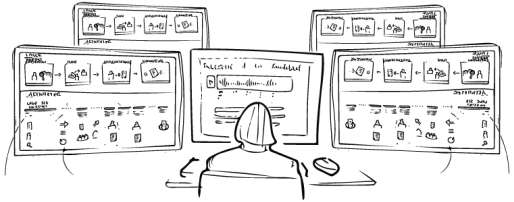
…det er mye vi kan lære fra andre komplekse operasjoner

INTEGRERTE OPERASJONER

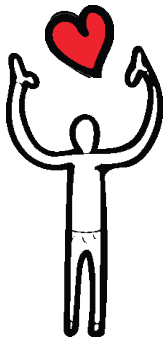
En smart by kan sees på som en integrert operasjon



Å styre en smart by krever en helhetlig gjennomarbeidet filosofi der man tar høyde for samarbeid, verdier, strategi, kontroll og etikk



Effektivitet er ikke bare grunnen til at vi lager byer



Hvordan inkluderer og engasjerer vi menneskene i byen?

Make good things happen in your neighbourhood

1/ Start your project & build support 2/ Fund a project 3/ Volunteer your time 4/ Share your experience

Brickstarter is an open platform for community projects. You can use it to kickstart and coordinate your idea, get the community behind it, find professional help and advice, and gain financial backing from others.

BACK THIS PROJECT
